OUR EQUIPMENT MANAGEMENT INTERFACE

MedReport 4.0

You have secure web-based access to our medical device tracking software.

medReport 4.0
Your medical device
management software

medreport4.pmsm.fr

MedReport 4.0 is now
available on
PC, Tablet and Smartphone.

Use of the **MedReport 4.0** software is via a **"full web-based"** password protected interface.

Requires no software installation on your computer.

This interface allows you to manage your medical devices **easily, intuitively** and **remotely**.

- ✓ **Asset management:** equipment list by site.
- ✓ **Information** on each **medical device:** manufacturer, model, photo, serial number, dates of the last and next quality control, list of accessories and associated consumables, etc.
- ✓ **Multilingual:** French/English interface (other languages on request).
- ✓ **Direct contact by Email** via a single click (request for intervention, cost, etc.).
- ✓ **Documents can be downloaded online:** user manual, service manual, quality control certificate, EU certificate,...
